

appendix – Vegetation Protection Overlay

GREATER GEELONG PLANNING SCHEME

VPO1 – SIGNIFICANT ROADSIDES AND LINEAR RESERVES

VPO2 - THACKER STREET, OCEAN GROVE

The Thacker Street Vegetation Protection Area is significant because:

It comprises remnant Bellarine Yellow Gum – Coast Manna Gum Grassy Woodland which is of national significance. It contains a large population of *Eucalyptus leucoxylon* ssp *bellarinensis* protected under the *Flora and Fauna Guarantee Act 1988*.

It has high conservation significance containing a diverse range of State and regionally significant plant species.

QUEENSLIFFE PLANNING SCHEME

VPO1 – REMNANT AND VEGETATION PROTECTION AREA

VPO2 – TEA TREE, MOONAH, COASTAL HEATH AND NATIVE VEGETATION PROTECTION AREA

The overlay area includes communities of native vegetation including substantial amounts of Tea Tree, (*Leptospermum laevigatum* and *Leptospermum juniperinum*), Moonah, (*Melaleuca lanceolata*) and Coastal Heath (*Leucopogon parviflorus*). This vegetation forms an integral part of the overlay area's coastal and urban character.
